

1. **Member Login** - You will be required to register for your initial login. Click on "quick links, member school login" to create your username and password. Your "cookies" will be remembered on your computer which will make logging in easier in the future. Once you register you will have immediate access to the website.
2. **View Vendor Contracts** - There is a quick link on the front page to all vendor contracts. This link can be accessed without logging in to allow for quick access to a list of contracts.
3. **Speed** - We are told by the web designer, Whalley Computers, that the new website is 200X faster than the old site. This will provide faster access to the contracts for members.
4. **Layout** - The layout of the new site will make it easier for you to search for contracts and view pertinent MHEC information.
5. **The Future** - There are a few tabs that are under construction. In the future we will be developing the MHEC marketplace, the newsletter, the vendor showcases, and our environmentally and socially responsible pages - stay tuned.

Many of our new features came from suggestions from our membership. If you have a question, new initiative, comment, idea on how to improve our communication with you, please do not hesitate to e-mail me at staceywikar@mhec.net.

A special thank you to the committee of members who provided valuable feedback during the development process.

Regards,

Stacey Wikar
Acting Executive Director
MHEC
