**Registrar Notes – Requested Addition to the Graduate Council Agenda**

At future Council Meetings, a section will be included on the agenda titled “Registrar’s Notes.” Prior to each Graduate Council meeting, the Registrar will inform the Graduate Council members concerning any changes to courses that do not in practice require a proposal. These changes may include:

- Minor course title changes (that do not change the basic nature of the course)
- Minor catalog description changes (that do not change the substance of the course)
- Cross-listing within the same department (that would only require the same department curriculum committee vote)
- Course prerequisite and corequisite removals (when all courses are within the same department and the changes only impact that department)
- Elective courses removed from catalog if not taught in the past five years (only by department request)

A representative from the Registrar’s Office will be available at the Graduate Council meeting to address any questions about these announcements. Members of the Graduate Council may request a vote to require a proposal for any item in the “Registrar’s Notes.”

The above process was approved at AUC for all undergraduate programs.
